X.509 user certificates / Listed T.

- Listing of teams will require a team representative, better two
  - Asking current teams to provide those
- Limited access to some infrastructure
- Self-Service interface for
  - Reaction tests
  - Maintenance / up-to-date messages

X.509 user certificates / Accredited

- Passwords are send to the team reps
  - Only four teams have only one team rep!
- Some teams do not register team members
  - Ability to access information and to participate in infrastructure is limited!

X.509 user certificates / Accredited

- Teams should register more team members
  - Using the self service it is easy
- You can request certificates for group mailbox access or trouble ticket system
  - Register a special user for this like any human staff
- You can request certificates for scripts or tools
  - Register a special user for this like any human staff

Annual Team Check for Listed

- Three teams were identified
- SC voted on the removal earlier this year
- Removal was implemented and announced

After the announcement we got independent information, that the teams had been „dead“ from other team representatives

Ad-hoc Checks for Listed (2)

- Two more teams were identified with problems
- Recommendation to the SC to remove those teams after September 2016
- Will continue to work with two other teams to solve the problems – as they are responsive and working with the TI Team to solve the problem!

Thank you very much for your kind attention !
